

2007

REPRODUCTIVE RIGHTS REPORT

for the Virginia General Assembly

Planned Parenthood Advocates of Virginia (PPAV)

April 2007

During every legislative session, Planned Parenthood Advocates of Virginia (PPAV) lobbies members of the Senate and House of Delegates on important reproductive rights issues. This Reproductive Rights Report documents legislator's votes on selected reproductive rights issues from the 2007 Virginia General Assembly session and one measure from the 2005 session. We hope that you will use this information to communicate with your legislators about their votes and reproductive rights in general.

The votes of members of the Senate and House of Delegates are recorded using the legislative issues on the following page. Please note that there are few recorded Senate votes because most of the legislative issues failed in the Senate Education and Health Committee and were not considered by the full Senate.

A legislator's performance should not be judged solely on a few selected votes. You should also consider other factors such as public statements, performance in committees, legislation introduced, and constituent service.

2007 GENERAL ASSEMBLY SESSION SUMMARY

Seventeen anti-choice bills were introduced this legislative session, including an Abortion Ban (HB 2124). In a move to avoid considering such extreme measures, the Abortion Ban and a few other bills died because they were never taken up in the House committees where they were assigned. For the first time in several years, an anti-choice measure (HB 2797) was defeated by the House of Delegates. All seven anti-choice bills that did pass in the House were narrowly defeated by the Senate Education and Health Committee.

On the prevention side, the Birth Control Protection Act (HB 2221) was introduced to define and protect birth control. Although the bill garnered 21 co-sponsors and widespread grassroots support, the bill failed to report out of a House subcommittee and was defeated. Two HPV vaccine measures were overwhelmingly approved with bi-partisan support in both the House and Senate. The development of this new vaccine and programs for widespread inoculation against cervical cancer is a major victory for women's health!

KEY LEGISLATIVE ISSUES

Biased Counseling and Ultrasound Requirement

HB 2808 (anti-choice measure), Patron: Del. Kathy Byron (R – 22, Lynchburg)

This bill required that every pregnant female be offered an ultrasound image of her “unborn child” before receiving an abortion. It also would have altered Virginia’s informed consent law by requiring women to receive ultrasounds 24-hours prior to the procedure. Currently, women who are traveling can have a same-day ultrasound. In Virginia, 32% of women receiving abortion services travel at least 50 miles. 10% travel more than 100 miles. Planned Parenthood opposed HB 2808. (House of Delegates: passed 60 – 38. Senate: failed in the Education and Health Committee 6 – 9).

Abortion and Birth Control Challenge

HB 2797 (anti-choice measure), Patron: Del. Bob Marshall (R – 13, Manassas)

This bill defined constitutional personhood from the moment of fertilization. It would have granted the constitutional right to the enjoyment of life to “each born and preborn human being” from the moment of fertilization. It also would have undermined Roe v. Wade and some forms of FDA-approved contraception. Planned Parenthood opposed HB 2797. (House of Delegates: failed 45 – 52).

Targeted Regulation of Abortion Providers (TRAP)

HB 1883 (anti-choice measure), Patron: Del. Bob Marshall (R – 13, Manassas)

This bill required any medical facility providing 25 or more abortions per year to comply with the regulatory requirements of an ambulatory surgery center. Ignoring all other medical/surgical procedures performed in physicians’ offices, this bill focused only on additional requirements for abortion services. Planned Parenthood opposed HB 1883. (House of Delegates: passed 60 – 36. Senate: failed in the Education and Health Committee 8 – 7).

Restrictions on Funding for Abortions

Budget Amendment, Item 4.5-04 #1h (anti-choice measure), Introduced by Del. Bob Marshall (R – 13, Manassas)

This budget amendment further restricted state funding for medically-necessary abortions. It would have prevented doctors and the most vulnerable women in Virginia from having access to all medical options. Planned Parenthood opposed this measure. (House of Delegates: passed 66 – 28. The budget amendment was not included in the final budget as approved by the budget conferees).

Birth Control Protection Act (2005)

SB 456 (pro-choice measure), Patron: Senator Whipple (D – 31, Arlington)

This bill defined contraception in the state code and protected birth control from Virginia’s abortion-related regulations (mandatory waiting period, state-scripted counseling, and parental consent). SB 456 was amended by removing a critical portion of the definition of birth control. This made the bill useless to protect access to contraception. Planned Parenthood supported the original bill but opposed the amendment. The patron ultimately pulled the bill after the unfavorable amendment was passed (Senate: amendment accepted 21 – 17).

ABOUT PLANNED PARENTHOOD ADVOCATES OF VIRGINIA

Planned Parenthood Advocates of Virginia (www.ppav.org) is a statewide advocacy organization whose mission is to preserve and broaden reproductive freedom through legislation, public education, electoral activity and litigation in Virginia. PPAV works to ensure that individuals and families have the freedom, information, and ability to make their own informed reproductive choices.

PPAV represents four affiliates in Virginia: *Virginia League for Planned Parenthood, Planned Parenthood of the Blue Ridge, Planned Parenthood of Southeastern Virginia, and Planned Parenthood of Metropolitan Washington, DC*. Together, these non-profit organizations serve more than 30,000 Virginians at nine health centers throughout the state.
