

REAL SEX ED SAVES LIVES!

Planned Parenthood in Virginia

I am concerned about the misleading information contained in abstinence-only education programs. Only medically-accurate, comprehensive sex education allows for responsible decision-making and disease prevention. Information that is wrong, too little, or too late can have long term and life threatening consequences. I urge you to support comprehensive programs that include information about abstinence, birth control, and preventing sexually transmitted infections.

Sincerely,

Name _____

Address _____

City, State, Zip _____

Phone Number _____

Email address _____

You will receive periodic updates and alerts. We do not share your personal information.

- I'd like to receive information about volunteer opportunities.
 I'd like to receive occasional information about candidates and issues in my area.
